

The Ascended Masters

While the Spiritual Hierarchy is comprised of all Council members, there are different degrees of carrying out the Universal plan. Information trickles down from the top just as in any organizational structure. This is not to say there is a rank-and-file but rather there are highly evolved beings that are designated to help implement learning on a higher level as well as information dissemination. When it comes to executing the wishes of the Council, the Ascended Masters have elected to be the vehicles for these teachings where they function from a higher plane of existence in order to assist humans in their gradual movement toward enlightenment. These beings are not confined to time and space. They have incarnated just as you and I have by way of the birth canal and they live among us fulfilling the inner calling of their God presence throughout each embodiment. As true masters, they have conquered all the lesser things of this world by incorporating the lessons of life, balancing karma, fulfilling their Dharma and becoming God incarnate. They stand by ready to support us in accomplishing this same goal and they will forever continue to extend their compassion until we have achieved individual and planetary ascension.

Throughout our existence, there have been countless masters that have volunteered to provide mankind with higher wisdom. These Ascended Masters have been compared to angelic beings in Christian folklore where they act as a source of revelation and authority. They are often viewed as respected teachers of spiritual wisdom and they are highly revered for their level of understanding. The Ascended Masters are extremely compassionate and solely dedicated to uplifting humanity. Some of the more familiar masters include such figures as; Thoth, Maitreya, Buddha, Sananda, Krishna and Jesus. Many people believe that each of these masters is the embodiment of the same being but we'll leave that for another discussion. Be that as it may, the Ascended Masters serve as teachers of wisdom to those that are receptive to their instruction.

An Ascended Master is a person who has succeeded in unifying the physical body with the light body. This pretty much describes the process of "Ascension" hence the term "Ascended Master." As such, they are believed to be spiritually enlightened beings that once inhabited human bodies but have undergone a process of spiritual transformation as in the case of Thoth, Maitreya, Buddha, Jesus and many others. That being the case, they know passion and they feel just like we do. They are real, visible, glorious, tangible beings of extreme light. They are living and caring beings that have such love, compassion, wisdom and power that the human mind could never comprehend. They function throughout the Universe with complete freedom and infinite power.

These adepts once lived upon the Earth just as you and I now are but they were able to transcend the lessons of life during their physical embodiments. They have since "Ascended" into a level of expression higher than that of the common human. They have essentially become pure, eternal, all-powerful, divine and perfect beings. This has allowed them to gain mastery over the physical plane by being able to balance at least 51% of negative karma thus fulfilling their Dharma or divine purpose. Once they are freed of negative karma, they can then choose how and where in the Universe they would like to serve. Many of these evolved masters have elected to

continue developing with the souls on Earth in order to guide them on the path of soul development and self-transcendence. As such; they are the true teachers of mankind, directing the spiritual evolution of all those who desire to reunite with divine consciousness.

Ascended Masters can belong to particular orders some of which include the Melchizedeks and the Elohim. The Melchizedeks purpose is to bring higher wisdom to humankind by influencing the arts, sciences, education and technology. They represent the “Triune” consciousness of wisdom which makes up the fundamental human life force. The Elohim are considered to be the most powerful aspects of the consciousness of God and they include the “Elementals” which are the Sylphs that control the air, the “Gnomes” that control the Earth, the “Undines” that control the water, and the “Salamanders” that control the fire element. These four aspects are said to govern our four lower bodies. Also under the Elohim are the “Beings of Nature” – the Four Beings of the Elements, who are the “Twin Flames” who have dominion over all of the evolutions of the Gnomes, Salamanders, Sylphs, and Undines. The Elohim carry the greatest concentration, the highest vibration of light that we can comprehend in our state of evolution.

The concept of Ascended Masters has long since been a mystery for us. For many years we haven't been able to figure this group out. Fortunately today, through the process of channeling we have been able to learn a considerable amount about them. Over the last several hundred years or so, these masters have been supporting our spiritual evolution by spreading light and wisdom through their initiates. They have earned the right to be the representatives of our spiritual hierarchy and it is through them that we are able to gain a better understanding about the evolution of the planet as well as ourselves. As we learn more about the Ascended Masters, we will begin to see just how much of an integral part they have played in bringing the planet and all of us to our present state of awareness. Once we begin to accept them, we will come to understand just how crucial they have been in the role of spiritual intermediary.

We are all capable of ascension through the assistance of these Ascended Masters who speak and channel inspiration to us usually in the dreaming or meditative state. Typically this is accomplished through the creative mind which is the intuitive side of the brain known as the right hemisphere or feminine side. Simply put, ascension means a return to the higher frequencies which is essentially a return to the feminine aspects of our souls. Connecting with an Ascended Master is simply a process of tapping into these higher forms of knowledge that are intrinsically ours. The Ascended Masters are the source we tap into when we want to trigger that higher knowledge within ourselves. People all over the world today are looking for a deeper and more meaningful way of connecting with spirit and it is the masters desire to present us with a path of initiation that will help raise our awareness by accelerating and reuniting us with our Higher Selves. But, you must to be willing to do the necessary work. For when the student is ready, the Masters will appear.
